2007 Sangiovese

TASTING NOTES

Aromas of blueberry, sandalwood and tobacco are restated generously on the palate. Densely packed with layers of warmed by the sun blueberries, black cherries, sage and allspice. Impressive sweetness of fruit emerges in the finish and is wrapped in cocoa and cola berry. Dramatic layers of flavors are heightened in a rich and viscous finish.

BLEND/VINEYARD INFO

90% Sangiovese, 10% Cabernet Franc

90% Desert View Vineyard Sangiovese, Columbia Valley

10% Champoux Cabernet Franc, Horse Heaven Hills

WINEMAKER'S NOTES

With the extended hang time in 2007, dark, lush fruit dominated in the red grapes in the Columbia Valley. The Sangiovese immediately stood out as something special when it came to the winery, and it was an easy decision that this should be the inaugural creation for our wine club members. The grapes were inoculated with 796 yeast and completed primary fermentation in stainless steel tanks to retain its brilliant acidity. The wine was transferred to French and American oak to complete malo-lactic fermentation. Aged for 27 months in combination new and neutral oak, the blend was developed in early 2010. Bottled on 2/10/10 we are delighted to release our first Sangiovese.
